

## **Bioflow for Animals**

Ecoflow are also the innovators of successful Magnotherapy products for animals. The standard range provides collars for dog and cats, vests for dogs, boots, tendon wraps and rugs for horses and ponies. Since the products were launched, the company has also provided a bespoke service to veterinarians, resulting in a number of individual products being manufactured for specific purposes. Products have been made for a young elephant with a back problem and for an arthritic lion, as well as for sheep, cattle, and even a goose!
